

Project Archaeology

Educator Workshops Application

28-29 April 2018 and 14-15 June 2018

Learn first-hand how to help your students practice the basics of inquiry-based learning through cross-curricular lessons that teach archaeology and cultural understanding.

Archaeology is an excellent tool for cross-curricular education. Subjects covered in the workshop will include **science, mathematics, social studies, history, language arts, geography, and the arts.**

Participants will receive full instruction in archaeological science for the classroom and the award-winning curriculum guide *Project Archaeology: Investigating Shelter* for **grades 3 – 5.**

While the workshop will focus on lessons for grades 3 through 5, educators of all grade levels are encouraged to apply as many concepts within the curriculum can be taught across all grade levels.

Educators employed in SC public school districts may be eligible to receive **renewal or professional development credit** for attending the Project Archaeology workshop. Please contact your district's coordinator for pre-approval of credit.

Workshops will take place from 8:30am - 5pm at the Parker Annex Archaeology Center (2025 Barnwell Street, Columbia, SC 29201). Lunch will be provided for free.

What is your interest in archaeology education? Why would you like to participate in this workshop, and how will you use what you learn in your classroom?

Have you ever used archaeology in your classroom? If yes, please explain.

How did you find out about the Project Archaeology Educator Workshops hosted by SCDNR?

Which of the two workshop sessions would you like to attend? The curriculum is the same for both sessions. Please put a "1" next to your first choice, and a "2" next to your second choice. If you are only available for one of the two options, please put a "1" next to that workshop session and leave the space next to the other blank. Please note that you will be expected to attend both days of the session you are chosen for in full.
